

The PrivateBank Selects Fidelity National Information Services' ACBS Commercial Lending Solutions

The PrivateBank will deploy the ACBS Origination, Servicing, and DataMart solutions to efficiently originate and service commercial loans. FIS' ACBS Lending Solutions are an integrated family of commercial lending products that automate the entire range of commercial lending activity; from deal origination, syndication, servicing, trading, settlement, and portfolio reporting.

"The PrivateBank needed a product and a Company that could adapt to our business practices and support our dynamic growth plans," said Elizabeth Cummings, Chief Operations Officer at The PrivateBank. "The functionality of ACBS will allow us to efficiently manage our diverse loan portfolio, as well as provide us with enhanced loan servicing and financial reporting capabilities."

"We are extremely pleased that The PrivateBank has selected FIS' ACBS solutions for its loan operations," said Richard Levy, President of FIS' ACBS division. "With The PrivateBank's growth in commercial lending and sophisticated credits, FIS' ACBS application suite and proven experience will provide invaluable support for The PrivateBank as it expands its portfolio and manages its operational and credit risk."
